FATE OF LEPROSARIUM IS NOW IN HANDS OF **BEMOCRATIC CONGRESS**

Upon the action of the present congress hangs the immediate fate of the Molokai leprosarium. Following cor-respondence between Passed Assistant Surgeon George W. McCoy, U. S. M. H. P. H. ROOSEVELTERS READY FOR POSSIBLE BOLT

(Continued from Page One,)

It was learned, however, that at the close of the caucus Mr. Boosevelt advised that the fight be made along parliamentary lines as long as possible. This, while admitting that a bolt is possible at any moment after the convention opens, the Colonel's advisers ary expedients will be exhausted behall.

The Roosevelt men intend to bring the fight to a focus the minute the concommittee, be rejected and the roll mite. prepared by the Roosevelt men themselves substituted, claiming that the tained by unfair and "steam-roller" methods.

The Roosevelt leaders contend that none of the contested delegations can vote, if this carries, it would give Roosevelt control of the organization. The Oklahoma delegation recognized

the possibility of a bolt when it defeated by a vote of 18 to 2 a resolution binding it to support the nominee of this convention,

Senator Borah of Idaho was announced as the Roosevelt choice for temporary chairman, with Governor Hadley of Missouri as floor leader.

Senator Dixon, Roosevelt's manager, yesterday afternoon claimed a majority of forty-two delegates. McKinley, Taft's manager, says that Roosevelt drew away only two Southern delegates. A wild demonstration was made to-

day for Roosevelt at a reception by the delegates and alternates, with talk of a third candidate prevalent.

RICE NAMED.

Charlie Rice of Hawaii has been named as a member of the credentials committee of the incoming national committee which will meet for the first time at noon today. Congressman Watson has been named

as the floor leader for Mr. Taft. Governor Frear of Hawaii yesterday denied the report that the Hawaii delegation intends to bolt to Roosevelt.

The Washington State Roosevelt delegation, refused recognition in the caucuses because the convention which sent it to Chicago was a "rump" convention, has decided to carry the fight to the floor of the national gathering today. Roosevelt declared that the kind of action taken, by the national committee, makes revolutions.

Nine Virginia delegates, seated by the national committee declared yesterday that they would vote to overrule the committee in the seating of the Taft delegations from California and

From "information received." Sheriff Pun is sure that a band of Filipino burglars is operating with the aid of an automobile. The clue is being worked on, and it only remains to make

sure of getting the right man.

That a band of Filipino thieves is located out some miles from Hilo, is certain. That the members of the band travel to this town at night time, and proceed to rob houses that have already been marked by confederates, is also certain. After each robbery, the burglars board the waiting machine, and race back to cover on one of the outside plantations.

Sometimes the men who come into town do not do the actual robbing. The stolen goods are often handed to them, and they depart for their homes. As the men work on their plantation jobs during the day time, no suspicion has, so far, been aroused in the minds of the overseers concerning their nocturnal do-

ings.
The robbers can easily leave their camps at a late hour in the evenings, connect with the waiting auto at some quiet spot, and then race into Hilo and back with the stolen goods.

The scheme is thought to have been batched through the stolen goods.
